

MUNICIPAL ELECTRIC SYSTEMS OF OKLAHOMA

How to work with OEM and FEMA

January 23, 2019

MESO Training Center

308 NE 27th Street, Oklahoma City

The Oklahoma Emergency Management Department (OEM) and the Federal Emergency Management Agency (FEMA) are charged with coming to the aid of communities after a disaster. This MESO training session will provide insight and best practices for working with these two government agencies.

Topics to be covered include:

- Procurements and Bid Solicitation Requirements from 2 CFR
- Project Worksheet Process – including Materials, Labor, Equipment, Contractor/Mutual Aid and Direct Administrative Costs (DAC)
- Summarizing Close-Outs
- Mitigation
- Stumbling Blocks and Insights
- New Electronic Submittals (MB-3)
- New Application Process
- Walk-Through of the FEMA-Designed Spreadsheet Program

How to work with OEM and FEMA

January 23, 2019

MESO Training Center • 308 NE 27th Street, Oklahoma City

This session is recommended for persons that would be responsible for the recording, tracking, or monitoring of disaster related expenditures for FEMA reimbursement.

COST: NO CHARGE (However, advance registration is required)

INSTRUCTOR(S):

Sid Sperry – Sid is the Director of Public Relations, Communications and Research for the Oklahoma Association of Electric Cooperatives. He has been involved in the electric industry for 38 years. In January, 2007, Sperry collaborated with Steve Piltz of the National Weather Service to develop the “Sperry-Piltz Ice Accumulation Index[®],” which is a forward-looking damage predictability index for electric utilities and other organizations potentially adversely affected by extreme ice storms.

Dennis Krueger – Dennis has nearly four decades of electric industry experience. During that time he managed electric cooperatives and was an underground utility contractor. His experience includes eight FEMA storm disasters and nearly two years working at the Oklahoma Emergency Management assisting the state on electric issues.

SCHEDULE:

9 a.m.	Registration
