

MUNICIPAL ELECTRIC SYSTEMS OF OKLAHOMA

# 2017 National Electric Safety Code<sup>®</sup> (NESC<sup>®</sup>) Update

~~June 14, 2017~~

**August 30, 2017**

Marlow, Oklahoma

Sponsored by:

Registrations completed by August 18, 2017 will include  
the 2017 National Electrical Safety Code<sup>®</sup> Book.

# Join Public Power Professionals to review changes in the NESC®.

## Learn, what you need to know, and the impact changes may make to the way you work.

The National Electric Safety Code® (NESC®) is the authoritative code for ensuring the continued practical safeguarding of persons and utility facilities during the installation, operation and maintenance of electric supply and communication facilities. It is published by the Institute of Electrical and Electronics Engineers (IEEE).

The IEEE published the 2017 National Electrical Safety Code® (NESC®) late last year. Some impactful changes to the code include revised requirements for substation impenetrable fences, required consideration of Aeolian vibration for conductors, changes to accommodate new industry insulator ratings, as well as revisions to the rules in Part 4 that align with changes made to 29 CFR by Occupational Safety and Health Administration (OSHA).

**Course registration deadline is August 25, 2017**

*To insure you receive the updated NESC® Book, registration must be completed by August 18, 2017.*

**Class size is limited - register today!**

**[Click here](#) to register online**

## Cost:

\$249 per person (includes NESC® Book and lunch)

## Instructors/Facilitators:

### Jim McAvoy / Director of Engineering Services

Jim serves as the Director of Engineering Services for the Oklahoma Municipal Power Authority (OMPA). He received his BSEE from the University of Oklahoma and a MBA from Oklahoma Christian University. He has more than 30 years industry experience working for Kansas Gas and Electric, Westar Energy, Oklahoma Gas and Electric and OMPA. He is a licensed professional engineer in Oklahoma and Kansas.

### Tom Dougherty, MESO's Director, Training and Safety

A public power systems veteran with three decades of service, Tom's experience includes being a serviceman, lineman, lead lineman, and crew chief. He's worked with both overhead and underground systems and focuses on safety first. Tom and his team lead all of MESO's on-the-job and safety training.

For more information about the workshop and training, contact **Tom Dougherty** at [tomd@meso.org](mailto:tomd@meso.org). For registration or billing information contact **Deborah Gonzales** at [deborah@meso.org](mailto:deborah@meso.org).

**REFUND/CANCELLATION POLICY**

Registrants who cancel five (5) working days prior to the date of the workshop (or event) are entitled to a full refund. A fifty percent (50%) refund is available to registrants cancelling at least two (2) working days prior to the workshop or event. There is no refund for cancellations made the day before or the day of the workshop (or event) or for no-shows. To notify of cancellation, please contact MESO by phone at 800-636-6376; fax at 405-524-5095; or, email at [deborah@meso.org](mailto:deborah@meso.org). MESO recognizes circumstances outside of the registrants control may impact attendance at a workshop (or event). If a registrant has a unique situation, please contact MESO, and we will consider exceptions to the policy on a case-by-case basis.
