

Storm Preparedness Training

9:30 a.m. – 3 p.m. • November 15, 2017

MESO Training Center • Oklahoma City

Sponsored by:

Is your utility storm ready?

Join us for an open discussion to prepare and improve our mutual aid program.

The goal of this discussion, planning, and decision-making session is to help ensure Oklahoma's Public Power Mutual-Aid response is prepared to handle challenges.

Using the American Public Power Association's Storm Preparedness model, participants will use an ice storm scenario for discussion.

Anyone involved with Mutual Aid should consider attending. The exercise will be held in an open, low-stress, no-fault improvement (designed to help members be better prepared to respond to and serve their customers).

There is no charge for this event, however for planning purposes, please [click here](#) to register online.

Class size is limited - register today!

Facilitator: Tom Dougherty, MESO's Director, Training and Safety

A public power systems veteran with three decades of service, Tom's experience includes being a serviceman, lineman, lead lineman, and crew chief. He's worked with both overhead and underground systems and focuses on safety first. Tom and his team lead all of MESO's on-the-job and safety training.

Session Schedule:

9:30 a.m. to 3 p.m.

(Lunch on your own)

Location:

MESO Training Center

308 NE 27th Street

Oklahoma City, Oklahoma

Questions:

For more information about the training session contact Tom Dougherty by telephone at 405-528-7564 or by email at tomd@meso.org.
